Notification

In keeping with containment of covid-19 protocols and for the benefit of public, the ministry is facilitating FCBL to import onion and tomato through Samtse and Gelephu. In order to prevent exorbitant rates charged by wholesaler and retailers, it is recommended to apply the rates fixed by the ministry, which has considered all related costs including operational cost, handling losses and overhead charges.

The landed costs are subject to change based on the procurement rate and transportation cost. The wholesale and retail price can be accordingly revised by Dzongkhag Agriculture Officers applying the same percent increment formula as in the attached sheet.
